pnack-lehman@omm.com

Patrick Nack-Lehman is an Intellectual Property and Technology associate in O'Melveny's Silicon Valley office. Patrick focuses his practice on patent and technology-related litigation.

His litigation experience spans state and federal courts in California, including patent infringement, trade secret misappropriation, and false advertising cases. His experience includes discovery, motion practice, expert work, trial preparation, and trial. Patrick also counsels clients on a range of intellectual property and business matters, including open source software licensing, copyright analysis, and trademark enforcement.

Patrick has experience with a variety of technical areas, ranging from video streaming and computer networking to medical devices. He holds a Bachelor's and Master's degree in chemistry, and worked in an academic research laboratory for three years, studying metalloenzymes using various spectroscopic techniques.
