Greg Thorpe advises companies on acquisition, development, and financing of real estate, infrastructure, and natural resources projects.

In the real estate field, Greg represents developers, tenants, and lenders in the acquisition, development and financing of office buildings, hotels, casinos, retail and entertainment centers, mixed use facilities, master-planned communities and other facilities. He also has assisted developers of real estate projects in creating the leasing, financing and operating structure for a variety of real estate developments. For example, Greg advised Kennecott Land Company in the commercial and residential development of more than 90,000 acres in Salt Lake, Utah, AEG in multiple aspects of the LA Live project in Los Angeles, and ValueRock in the acquisition of shopping and retail centers in Hawaii and California.

Greg also represents parties in complex public-private development projects and projects involving significant governmental involvement. These projects include over 30 utility-scale and distributed generation energy generation facilities (conventional, wind, solar, biomass, fuel cell and other technologies), freight and passenger rail facilities, roads, water systems, seaport facilities, and public arenas, museums and entertainment venues. For example, Greg represented the project developers in creating the legal and financial structure for the Alameda Corridor Project, a US\$2.5 billion rail infrastructure project in Los Angeles, and is representing the Academy Museum Foundation in the development of a new \$400 Million museum in Los Angeles, the California High Speed Rail Authority in railroad related aspects of its high speed passenger rail project,
