Accolades

"With its national coverage and depth of expertise, the firm's bet-the-company labor and employment litigation practice is very well known."

Overview

O'Melveny helps equity investors, financiers, sponsors and hedge providers navigate the fast-growing clean and renewable energy sector while minimizing risk. From major industry financiers, developers, and producers to innovative start-ups and investors, our full service solution offers robust project finance, tax, environmental, real estate, public policy, and regulatory capabilities.

Our team includes highly regarded lawyers in the US, Asia and Europe with deep experience in the solar, wind, ethanol, biodiesel, biomass, geothermal, hydroelectric, and clean and sustainable technology sectors. And our experience includes structuring some of the industry's most innovative deals.

► Broad Experience

- Full range of financing documentation
- Project acquisition, development, and construction
- Fuel supply and off-take agreements

- Joint ventures and other ownership structuring agreements, including undivided interest structures and royalty arrangements
- Corporate counseling
- Restructuring matters

► Pioneering Work

- The first-ever leveraged lease financing of a wind power project
- The first-ever leveraged renewable energy project to utilize Treasury grants in lieu of ITCs
- The largest-ever geothermal project financing
- The largest-ever equity investment in a wind power project
- The largest solar project completed in the US in the last 15 years
- One of the largest-ever energy projects to utilize a PAYGO structure
- The first-ever wind power transaction financed by institutional equity investors
