John Dermody

Washington, DC

D: +1-202-383-5306

Data Security & Privacy counsel John Dermody was quoted in this *CIO Dive* article discussing how organizations should respond to ransomware attacks.

Even with the help of in-house security experts, “cybersecurity is as much of a people issue as it is a technology issue,” said Dermody. “Expensive security systems aren't going to prevent an employee from clicking on a link in a phishing email.”
