Experian + O'Melveny Present: A Matter of Cybersecurity

October 19, 2022

When criminals infiltrate your organization, everything you do matters! Don't let cybercriminals take you down!

O'Melveny partner Sid Mody, a former Federal prosecutor, and counsel John Dermody, a former Department of Homeland Security lawyer, will join Experian's resident breach response expert, Michael Bruemmer, for a jam-packed webinar on the latest attack trends, must-know regulation guidance, a 2022 Experian prediction update, plus not-to-miss RaaS and AaaS red-hot topics.

Wednesday, October 19, 2022

11:00 am PT / 2:00 pm ET

You'll leave the webinar with the latest on:

- **Data Breach Trends:** Why are breach notices from 2021 just now hitting inboxes, and are business email compromises trending up?
- **2022 Experian Data Breach Forecast Predictions:** A mid-year update (what's validated, what's not, and what does the DOJ have to do with it?)
- **Regulation Rundown:** Hear how China, CISA, class actions suits, and Cyberdemic 2.0 are connected.
