Overview

Dynamic international supply chains, tightening margins, and industry consolidation are but some of the factors transforming the industrials and manufacturing sector. O'Melveny helps companies confront the promise and peril of these challenging times.

With strengths in the full array of relevant legal disciplines, our team features experienced transactional and finance teams, savvy labor lawyers, courtroom-tested products liability litigators, knowledgeable environmental and real estate specialists, and regulatory and trade experts with experience serving in relevant US and international government agencies.

We have been involved in some of the industry's most complex deals and disputes, from defending a Fortune 100 company in a criminal investigation in the United States that triggered some 50 class actions to advising on the financing and development of manufacturing facilities in Asia, Europe, North and South America. Our client roster—which, over the years, has included such names as ASSA ABLOY, General Electric, Honeywell, Westinghouse, and Xerox—is further testament to our ability to understand our clients'

Accolades

"With its national coverage and depth of expertise, the firm's bet-the-company labor and employment litigation practice is very well known."

Legal 500 US

goals and help them succeed.
