Overview

Media, entertainment, and technology have evolved side by side, with advances in one shaping the growth of the others. That's as true during the dawn of radio, film, and television as it is in today's age of streaming services, social media, and virtual reality. Throughout decades of innovation and creative disruption, one firm has offered steady guidance to all the major industry players: O'Melveny.

With a storied history of Hollywood dealmaking and a thriving Silicon Valley practice, O'Melveny MediaTech is ideally positioned to counsel clients on transformative deals shaping the media and technology landscape. We bring a deep understanding of the unique needs of mediatech businesses, drawing on our wealth of experience advising entrepreneurs, early-stage companies, content creators, delivery platforms, angel investors, and venture capital funds on strategies that support, monetize, grow, and protect their legal and business interests.

- Geographic presence mirrors key US mediatech centers: Long rooted in Los Angeles—where we have the longest history of any law firm—
