Tax FAQs 2009

January 1, 0001

O'Melveny's Tax FAQs is a collection of tax-related questions and answers of particular interest to today's-economy companies and their owners.

The Tax FAQs address the questions throughout the growth of a company from initial formation through maturity — from Choice of Entity to Financial Distress. The discussion is designed to be readily understandable by non-tax professionals, with numerous examples and notes to help illustrate and explain the important applications and implications of the tax rules.

The guide was prepared for both business and legal audiences but is not intended as and is not a substitute for legal advice.
