The National Law Journal named O'Melveny partner Peter Friedman among its list of "2019 Litigation Law Trailblazers," which honors litigators from a range of practice areas who are "truly agents of change."

"Engaging with smart people on issues that matter has always been something I wanted to be involved in," Friedman told the *NLJ*. Over the past two years, he has litigated on behalf of the Governors of California and Puerto Rico in separate high profile restructuring matters. Friedman is also currently representing the state of California involving the bankruptcy of Pacific Gas & Electric.

Partner Leah Godesky's "2019 Winning Litigators" profile can be found on page 24.
